SET TO  
DEPLOY

The top of the box is unmodified.

A tray sits at the upper portion of the box to hold the Turkish Delight. There is also a wire hook dangling from the middle. This hooks to the bottom trigger wire to set the action.

The cardboard box is hinged to allow it to pop-up. The action is caused by elastic bands that run to opposite corners (only one is shown for clarity). In each corner is sewn some plastic rings that cause the corners to keep proper alignment.

Magical Appearing Turkish Delight  
for The Lion the Witch  
and the Wardrobe
